15 steps to sell your property in 60–90 days

A practical list to prepare, list and close.

1. **Set a realistic price**
   Compare with recent sales of similar properties in your area, not with listing prices. A price more than 10% above the market slows down viewings.

2. **Gather the documents before you list**
   Title at the Public Registry, property tax and water clearance, up-to-date maintenance fees if it is a condo (PH), floor plans. With everything ready, you close faster when an offer comes.

3. **Decide your minimum price and what the sale includes**
   Furniture, appliances, handover date. Decide it first, so you do not negotiate from zero with every buyer.

4. **Clean, declutter and fix the small things**
   Remove personal items, fix taps and lamps, touch up the paint. A tidy place looks bigger in photos.

5. **Take professional photos in natural light**
   20 to 30 horizontal photos, in the daytime with the curtains open. The first photo decides whether people open the listing.

6. **Record a short video**
   A 60-second walk-through on your phone, vertical, for Instagram and Facebook.

7. **Write a clear description**
   Location, square meters, bedrooms, year, maintenance fee and what is nearby. No empty adjectives like “amazing”.

8. **Think about who buys**
   Beach, view, security, internet, rental potential. If the buyer is a foreigner, explain the process: payment, lawyer and documents.

9. **List where the buyers are**
   Meta Ads (Facebook and Instagram) to reach people who are not searching yet, and Google Search for people who already search “house for sale” in your area.

10. **Use your own page with one button**
    A landing page with photos, the price and a clear WhatsApp button. Fewer steps, more messages.

11. **Reply in under 24 hours, ideally in one**
    Buyers write to several properties. The one who replies first wins.

12 **Filter before you show**

Ask about budget, timeline and how they will pay. That way you only show the property to people who can buy.

13 **Group the viewings**

Two or three a day, with the property ready, aired and bright. You save time and the interest shows.

14 **Work with Restate Deals instead of agencies**

An agency is paid from the sale and works many properties at once. Here we work your property in sprints, at a fixed price, with results you can see:

- No commission: with a broker you pay 5% + 7% ITBMS on the commission. Here you pay for the work per 45-day sprint and for the ads directly to Meta and Google.
- You see every buyer: you get each buyer's name and number in the report, not just “there was interest”.
- Guarantee: if we bring fewer qualified buyers than guaranteed, we extend the sprint for free or refund the work fee in proportion.
- No exclusivity: you can keep your broker.
- Faster: a sprint is 45 days. With a broker the average is 224 days (ACOBIR MLS, first half of 2026).

15 **Review every two weeks and adjust**

Check how many messages and viewings come in. If there are no viewings in 30 days, change the photos, the text or the price. Do not wait for months.
